

Contents at a Glance

Part 1:	Windows 7 Everywhere: A Few Things You Need to Know	1
1	Windows 7: The 50¢ Tour <i>Leave diving into the deep end for daredevils and other leap-before-they-look types. This chapter gets your Windows 7 learning off to an easy start.</i>	3
2	Making Something Happen: Launching and Controlling Programs <i>Putting the whip to Windows by learning how to start programs and how to control menus, toolbars, and dialog boxes.</i>	15
3	Working with Windows 7's Windows <i>Improve your Windows 7 fitness by running through a complete Windows exercise routine.</i>	35
4	Saving, Opening, Printing, and Other Document Lore <i>A digest of document wit and wisdom that covers the most common workaday chores.</i>	47
5	Fiddling with Files and Folders <i>The easiest ways to copy, move, rename, delete, and search for files and folders.</i>	59
6	Installing and Removing Programs and Devices <i>Welcoming programs and devices into your system (and giving the boot to programs and devices that have worn out their welcome).</i>	81
Part 2:	Windows 7 at Home	95
7	Playing with Images <i>A tour of the various Windows 7 bits and pieces that help you work with and manipulate picture files.</i>	97
8	Getting Images from Scanners and Digital Cameras <i>Copying someone else's masterpieces using a scanner or digital camera.</i>	113
9	Sights and Sounds: Windows 7's Digital Media Tools <i>Playing sounds, movies, audio CDs, DVD movies, and more.</i>	125
10	Making Movies with Windows 7 <i>Becoming a digital movie producer with Windows Movie Maker and Windows DVD Maker.</i>	143

11	Sharing Your Computer with Others <i>Learning to coexist peacefully with other people who also use your computer.</i>	155
Part 3:	Windows 7 at Work	171
12	Places to Go, People to See: Using Windows Live Mail's Calendar <i>Turning Windows 7 into your own personal administrative assistant.</i>	173
13	Fax-It-Yourself: Using Windows 7's Faxing Features <i>Putting your modem to good use by sending and receiving faxes right on your computer.</i>	181
14	Windows 7 and Your Notebook Computer <i>Get the skinny on using Windows 7's new notebook knick-knacks.</i>	193
Part 4:	Windows 7 on the Internet	203
15	Getting onto the Internet <i>Using Windows 7 to jump on the Net bandwagon.</i>	205
16	Wandering the Web with Internet Explorer <i>Hitchin' a ride around the web with Internet Explorer.</i>	217
17	Sending and Receiving E-Mail with Windows Live Mail <i>Using Windows Mail to yakety-yak via e-mail.</i>	233
18	Your Net Safety Net <i>Protecting yourself from Net nasties such as viruses, spam, system intruders, and more.</i>	249
Part 5:	Windows 7 at the Shop: Customizing, Maintaining, and Troubleshooting	265
19	Refurbishing the Desktop <i>Setting the background, changing the colors, and other rugged desktop individualism.</i>	267
20	Revamping the Start Menu and Taskbar <i>Giving the Start menu and taskbar an efficiency makeover.</i>	281
21	Maintaining Your System in Ten Easy Steps <i>Deleting useless files, checking for errors, getting a speed boost, and other system maintenance.</i>	295

22	Troubleshooting and Recovering from Problems	311
	<i>A few general but ridiculously useful techniques for solving computer problems.</i>

Contents

Part I: Windows 7 Everywhere: A Few Things You Need to Know	1
1 Windows 7: The 50¢ Tour	3
Starting Windows 7.....	4
A Tour of the Screen.....	5
<i>The Desktop</i>	6
<i>The Taskbar</i>	6
A Few Mouse and Keyboard Fundamentals.....	7
<i>Basic Mouse Maneuvers</i>	7
<i>Common Keyboard Conveniences</i>	9
Making It Legit: Activating Your Copy of Windows 7.....	11
Shutting Down Windows for the Night.....	11
2 Making Something Happen: Launching and Controlling Programs	15
Launching a Program.....	16
<i>A Look Around the Start Menu</i>	17
<i>Navigating the Start Menu</i>	19
<i>Cranking Up a Program Right from the Taskbar</i>	21
Now What? Getting a Program to Do Something Useful.....	22
<i>Making It Go: Selecting Commands from Pull-Down Menus</i>	22
<i>Your Click Is My Command: Toolbar Basics</i>	26
<i>Special Cases: WordPad and Paint</i>	27
<i>Dealing with Dialog Boxes</i>	28
Switching from One Program to Another.....	31
When Enough's Enough: Quitting a Program.....	34
3 Working with Windows 7's Windows	35
Warming Up: A Window Walkabout.....	36
Breaking a Sweat: Window Exercises.....	37
<i>Minimizing a Window</i>	38
<i>Maximizing a Window</i>	38
<i>Restoring a Window</i>	40
<i>Moving a Window</i>	40
<i>Sizing a Window</i>	40
<i>Cascading and Tiling Windows</i>	41
<i>Taking a Peek at the Desktop</i>	43
Window Weight Lifting: Using Scrollbars.....	44
Scrolling with a “Wheel” Mouse.....	46

4	Saving, Opening, Printing, and Other Document Lore	47
	What on Earth Is a Document?	48
	Manufacturing a New Document.....	48
	The All-Important Save Command.....	49
	<i>Saving a New Document</i>	50
	<i>Saving an Existing Document</i>	51
	<i>Checking Out the Windows 7 Libraries</i>	51
	<i>Using the Save As Command to Make a Copy of a Document</i>	52
	Getting It Right: Text Editing for Beginners.....	53
	Closing a Document	55
	Opening an Existing Document	55
	Sending a Document to the Printer	56
5	Fiddling with Files and Folders	59
	Navigating with Windows Explorer.....	60
	<i>Navigating to a File</i>	61
	<i>Getting Around in Windows Explorer</i>	63
	Workaday File and Folder Maintenance	64
	<i>Creating a New File, Folder, or Library</i>	64
	<i>Selecting Files and Folders</i>	66
	<i>Copying and Moving a File or Folder</i>	67
	<i>Including a Folder in a Library</i>	67
	<i>Renaming a File or Folder</i>	68
	<i>Previewing a File</i>	69
	<i>Deleting a File or Folder</i>	70
	<i>Creating a Compressed Folder</i>	71
	<i>“Burning” Files to a CD or DVD Disc</i>	72
	Finding a File in That Mess You Call a Hard Disk.....	73
	<i>Searching from the Start Menu</i>	74
	<i>As-You-Type Searching</i>	75
	Points of View: Changing the Windows Explorer View	76
	Adding Comments, Keywords, and Other Document Data	77
	Organizing Your Documents	78
6	Installing and Removing Programs and Devices	81
	The Welcome Wagon: Installing a Program	82
	<i>Installing a Windows 7 Component</i>	82
	<i>Installing a New Program</i>	85
	<i>Changing a Program’s Installed Components</i>	86
	The Bum’s Rush: Removing a Program.....	87
	<i>Uninstalling a Windows 7 Feature</i>	87

Uninstalling a Windows Live Essentials Program 88
Giving a Program the Heave-Ho..... 88
 Device Advice I: Installing Hardware..... 89
 Understanding Hardware Types..... 89
 Running the Add a Device Wizard..... 90
 Device Advice II: Removing Hardware..... 93

Part 2: Windows 7 at Home 95

7 Playing with Images 97

The Alphabet Soup of Picture File Formats..... 98
 A Tour of the Pictures Library 100
 All Thumbs: Using the Thumbnail View..... 100
 A Closer Look: Previewing a Picture 101
 Converting an Image to Another Format 103
 Setting Up an Image Slide Show..... 104
 Printing Pictures 104
 Browsing Images in the Windows Live Photo Gallery 105
 Grouping Images..... 106
 Tag, You're It: Image Metadata and Tagging..... 107
 Quick Fixes: Making Image Adjustments..... 108
 Setting a Picture as the Desktop Background..... 110
 Capturing a Picture of the Screen 110

8 Getting Images from Scanners and Digital Cameras 113

Installing a Scanner or Digital Camera..... 114
 Getting Images from Your Scanner or Camera 116
 Importing Pictures from a Digital Camera..... 116
 Scanning an Image..... 118
 Dealing with Memory Cards and Other Removable Media 120
 Browsing Digital Camera Images..... 121

9 Sights and Sounds: Windows 7's Digital Media Tools 125

Making Multimedia Whoopee with Media Player 126
 Giving Media Player Some Media to Play 128
 Let's Make Some Noise: Playing Media..... 129
 Messing with Media Player's Audio CD Features 130
 Hard Disk Rock: Ripping Tracks from a CD..... 131
 Becoming a Program Director: Creating a Custom Playlist..... 134
 Rollin' Your Own Music: Burning Tracks to a CD or Device..... 135
 In Sync: Synchronizing Media on a Device 136

Generously Sharing Your Media Library	137
Movies, Tunes, and More: Running Media Center	137
<i>Making the Connection</i>	138
<i>Firing Up Media Center</i>	139
<i>Taking a Look Around</i>	139
10 Making Movies with Windows 7	143
Introducing Windows Live Movie Maker	144
What Hardware Do You Need to Use Movie Maker?	144
A Tour of the Movie Maker Screen	145
Importing Footage from a Video Camera	147
<i>Importing Existing Footage from a Video Camera</i>	147
<i>Importing Live Footage from a Video Camera</i>	148
Starting a Fresh Movie Maker Project	149
From Projector to Project: Creating Your Movie Project	149
<i>Adding a Video Clip to the Project</i>	149
<i>Using the Storyboard to Juggle Clips</i>	150
<i>Trimming a Clip</i>	150
<i>Adding a Transition Between Two Clips</i>	151
<i>Adding Video Effects</i>	152
<i>Adding a Soundtrack</i>	152
Outputting Your Project to a Movie File	153
11 Sharing Your Computer with Others	155
Understanding These User Account Doodads	156
Creating a New Account	157
Changing an Existing Account	157
<i>Changing the User's Name</i>	158
<i>Creating an Account Password</i>	158
<i>Changing the Account Picture</i>	159
<i>Changing the Account Type</i>	160
<i>Deleting an Account</i>	161
Logging On to an Account	161
What's with All the Dialog Boxes? (User Account Control) ...	162
Sharing Documents with (and Hiding Them from)	
Other Users	164
Protecting Your Kids with Parental Controls	165
Sharing Stuff with a Windows 7 Homegroup	167
<i>Creating a Homegroup</i>	167
<i>Joining a Homegroup</i>	168

Part 3: Windows 7 at Work	171
12 Places to Go, People to See: Using Windows Live Mail's Calendar	173
Navigating the Calendar Window.....	174
<i>Time Traveling: Changing the Date</i>	175
<i>Changing the Calendar View</i>	175
Setting Your Social Schedule: Entering Events	176
<i>Adding an Appointment</i>	177
<i>Creating a Recurring Appointment</i>	179
<i>Scheduling an All-Day Event</i>	179
13 Fax-It-Yourself: Using Windows 7's Faxing Features	181
Running Windows Fax and Scan.....	182
<i>Creating a Fax Account</i>	183
<i>Entering Some Personal Data</i>	184
Using "Fax" as a Verb: Sending a Fax	184
<i>Faxing a Simple Note</i>	185
<i>Faxing a Document</i>	186
<i>Faxing a Hard Copy from a Scanner</i>	186
Covering Your Fax: Creating a Fax Cover Page.....	187
"Incoming!" Receiving a Fax	190
<i>Setting Up Fax Receiving</i>	190
<i>Handling Incoming Calls</i>	191
14 Windows 7 and Your Notebook Computer	193
Your One-Stop Notebook Shop: The Mobility Center	194
Better Battery Life Through Power Management	195
<i>Keeping an Eye on Battery Life</i>	196
<i>Power to the People: Specifying a Power Plan</i>	196
<i>Cobbling Together Your Own Power Plan</i>	198
<i>Configuring Your Notebook's Power Buttons</i>	199
Setting Up Your Notebook for a Presentation	200
Part 4: Windows 7 on the Internet	203
15 Getting onto the Internet	205
What to Look For in an Internet Service Provider	206
<i>Doing It with Dial-Up</i>	207
<i>Heading Down the Broadband Highway</i>	209
<i>Going Wireless</i>	209

Getting Ready to Rumble: Gathering Information	210
Getting Started on Your Road to the Internet.....	210
Making the Connection	213
Severing the Connection.....	214
16 Wandering the Web with Internet Explorer	217
Cranking Up Internet Explorer	218
Getting to Know Internet Explorer's Nuts and Bolts.....	219
Web Page Navigation Basics.....	220
Techniques for Efficient Web Gallivanting.....	223
<i>Saving Sites for Subsequent Surfs: Managing Your Favorites</i>	223
<i>Order Out of Chaos: Searching for Sites</i>	225
<i>One-Window Browsing: Surfing with Tabs</i>	227
Dealing with Files in Internet Explorer	228
Feed Me: Subscribing to RSS Feeds	229
17 Sending and Receiving E-Mail with Windows Live Mail	233
Getting Started with Windows Live Mail.....	234
Setting Up Your Internet E-Mail Account.....	234
<i>The High Road: Quick Account Setup</i>	234
<i>The Low Road: Configuring an Account By Hand</i>	234
The Lay of the Windows Live Mail Land	236
The Outbox: Sending an E-Mail Message.....	237
<i>The Basics: Composing and Sending a Message</i>	237
<i>Easier Addressing: Using the Contacts List</i>	240
<i>Inserting Attachments and Other Hangers-On</i>	241
The Inbox: Getting and Reading E-Mail Messages	242
<i>Getting Your Messages</i>	242
<i>Reading Your Messages</i>	243
<i>Attending to Attachments</i>	245
<i>What to Do with a Message After You've Read It</i>	245
Manufacturing New Message Folders.....	246
Setting Up a Signature.....	247
18 Your Net Safety Net	249
Squashing Spyware with Windows Defender	250
Working with E-Mail Safely and Securely.....	251
<i>Protecting Yourself Against E-Mail Viruses</i>	252
<i>Using the Junk Mail Filter to Can Spam</i>	254
<i>Setting the Junk E-Mail Protection Level</i>	255
<i>Specifying Safe Senders</i>	256
<i>Blocking Senders</i>	257

Caveat Surfer: Internet Explorer and Security.....	257
<i>Avoiding the Lures of Scammers with the SmartScreen Filter...</i>	258
<i>Covering Your Tracks: Deleting Your Browsing History</i>	260
<i>Your Own Private Web: InPrivate Browsing and Filtering.....</i>	261
<i>Blocking Pop-Up Windows.....</i>	263

Part 5: Windows 7 at the Shop: Customizing, Maintaining, and Troubleshooting **265**

19 Refurbishing the Desktop **267**

Why Customize?	268
Changing the Desktop Background	268
Populating the Desktop	270
<i>Adding Desktop Icons</i>	270
<i>Adding Program Shortcuts.....</i>	270
<i>Changing an Icon</i>	271
<i>Adding Gadgets</i>	272
Screen Saver Silliness	273
Changing the Desktop Colors and Fonts.....	275
<i>Choosing a Glass Color Scheme</i>	275
<i>Choosing a Regular Color Scheme</i>	276
<i>Saving Your Custom Theme.....</i>	277
Changing the Display Settings	277

20 Revamping the Start Menu and Taskbar **281**

A Smart Start: Reconstructing the Start Menu.....	282
<i>Toggling Some Start Menu Settings On and Off.....</i>	282
<i>Adding Your Own Start Menu Icons</i>	286
<i>Easy Start Menu Maintenance.....</i>	288
Renovating the Taskbar.....	288
<i>Unlocking the Taskbar</i>	289
<i>Taskbar Travels: Moving and Sizing the Taskbar</i>	289
<i>Some Useful Taskbar Options.....</i>	290
<i>Getting Control of the Notification Area</i>	291

21 Maintaining Your System in Ten Easy Steps **295**

Step 1—Check Your Hard Disk for Errors.....	296
Step 2—Check Free Disk Space	297
Step 3—Delete Unnecessary Files.....	298
Step 4—Defragment Your Hard Disk	300
Step 5—Set System Restore Points	302

Step 6—Back Up Your Files	304
Step 7—Create a System Image Backup	306
Step 8—Check for Updates	307
Step 9—Check for Solutions to Problems	309
Step 10—Set Up a Maintenance Schedule.....	309

22 Troubleshooting and Recovering from Problems 311

Determining the Source of the Problem.....	312
General Troubleshooting Tips	314
Troubleshooting Using Online Resources	315
Recovering from a Problem.....	317
<i>Booting Using the Last Known Good Configuration.....</i>	<i>317</i>
<i>Recovering Using System Restore.....</i>	<i>317</i>
<i>Recovering Using the System Recovery Options.....</i>	<i>319</i>
